WALKTHROUGH

1. What do we need to do to advance this piece of work?	Finalize the PowerPoint presentation using the lecturer's feedback. Receive input from all group members. Allocate responsibilities for the remaining work. Prepare the final version of the presentation.
2. Is anyone working on anything that is not on the board?	Yes. I continued improving the PowerPoint presentation independently because there was little communication within the group.
3. What do we need to finish as a team?	Discuss the lecturer's feedback. Agree with the changes remaining presentation. Finalize the presentation together. Improve communication among team members.
4. Are there any bottlenecks or blockers to the flow of work?	Poor communication from group members. Delayed responses to messages. Some lecturer feedback cannot be implemented until the group discusses and agrees on the required changes.

Tuesday	1. What did I complete since the last standup?	Attended the Entrepreneurial WIL class. The lecturer introduced the Entrepreneurial WIL project. We were informed that presentations would begin on Wednesday. I started creating the PowerPoint presentation because there was no communication about who would prepare it.

	3. What are my impediments (or risks or problems)?	There was very little communication within the group. No presentation roles had been assigned. It was unclear who would be presenting.

Friday	1. What did I complete since the last standup?	Although I missed class because I received the updated WhatsApp message late, I continued improving the PowerPoint presentation. Reviewed the lecturer's feedback and made changes that I could complete individually.
	2. What am I planning to complete between now and the next standup?	Continue improving the presentation. Attempt to communicate with the group again. Implement any remaining feedback that can be completed individually.
	3. What are my impediments (or risks or problems)?	There was confusion regarding whether class would take place. I received the updated WhatsApp message too late to attend. Group communication remained poor, making it difficult to implement all the lecturer's feedback.
